

High Performance Coach Development Grant

The High Performance Coach Development Grant is funded by the Canadian Sport Center Saskatchewan and administered through a partnership with the Coaches Association of Saskatchewan.

As coaches strive to increase their knowledge, skills, abilities and certification, cost can be a barrier to successfully meeting their coaching career goals. The purpose of this grant is to support Saskatchewan coaches who work with high performance athletes and are committed to upgrading their coaching skills & abilities through education, training, and certification. This grant allows the coach to participate in coaching workshops or conferences, attend major competitions as a coach, mentor with a Master Coach, upgrade their NCCP certification, or consult with a recognized sport expert. This grant may also be used in combination with support from other cost-sharing partners to help coaches broaden the scope of their learning options.

To be eligible the coach must be NCCP certified at Level 3 (or equivalent under the new NCCP), be a member in good standing with their Provincial Sport Organization, be coaching Saskatchewan high performance athletes (Provincial team or higher), and be committed to furthering their training and certification through continuous professional development.

Definition: The High Performance context is where young adults are coached to refine advanced skills and tactics and are typically prepared for performance at national and international level competition (Training to Compete & Training to Win stages of LTAD).
